Dear Mr./Ms,

My name is \_\_\_\_\_ from Barcelona and I am twenty-seven years old. Through Travel Work, I would like to have the opportunity to work in Devon 3 or 4 months while I'm improving my English level.

Currently, I am working at \_\_\_\_\_, publicity and media communication company for 3 years ago. In this period, I have worked on several projects and with several clients and advertisers. My functions are very varied: from defining advertising strategies, organizing special actions for advertisers or managing their publicity budgets and billings. Also, I am in daily contact with clients and suppliers.

Before working here, I worked in other companies in the advertising sector where I not only planned advertising campaigns but also Towards an analysis of my clients' competence, negotiations with suppliers and participation in trade fairs.

But now, I want to change my current occupational sector and starts work in event management sector. I recently studied two event planning courses. One of them specializes in fashion events and another in wedding planner. This degree mainly includes subjects such as protocol, production, types of events and weddings, communication of events... I'm totally in love with this sector.

On the other hand, I'm in love with travelling and meeting new people. This is the reason why I would like to have a job that means stay in contact with the costumers. I consider that smiling and showing a good impression to the people around you is the most relevant. So, I am interested to apply for any position that allows me to interact with people and improve my English level.

If there is any further information that you require or any questions, please let me know, and I will get back to you straight away. Thank you for your time and considering my application, I look forward to hearing from you to discuss the possibility of arranging an interview.

I'm sure that this experience in UK while I work and practice English meeting new people and learning the culture of their it could be fantastic for me.

Yours sincerely,

\_\_\_\_\_
