To whom it may concern,

My name is _____, I am twenty-four years old and I am from Barcelona located in Catalonia (Spain). I would like to have the opportunity of live a new experience in Mauritius while am working in a marketing internship.

Currently, this year I have finished a master degree in Digital Marketing (2017-2019) and I want to get more experience in a different country. During the last three years I have been working in two digital consultancies, _____ and _____. I have worked in different digital projects but with the same objective: help local companies to digitalize their products and services.

In _____ I worked as IT consultant doing formations of Microsoft technology products. I am expert in Microsoft Axapta (AX), Navision (NAV) and Sharepoint functionality. For example, I have designed the formation plans of Microsoft Axapta for the employees of Pompeu Pabra University (UPC) and Soler&Palau (S&P).

Last year I have decided to accept a job in _____. The company contacted me thought LinkedIn and offered me a job as digital strategy consultant. A mix between a marketing and business position, the two things that I have studied. I decided to accept and during these years I have been working in innovation projects for some companies like Volkswagen, Barcelona Futbol Club and Esade. For example, I have designed the webside and all the marketing communication of the new innovation hub of Volkswagen Group España, called iLAB.

This year I have decided to travel and work to Mauritius Island. My main objective is to live in a different country, while I am improving my English and getting more experience in marketing. I took that decision to come back to Spain and be able work in international companies.

I am completely sure that I will enjoy living in Mauritius meeting new people and learning the culture of there.

Thank you for your consideration,

I'm looking forward to hearing from you,

Sincerely,
